

THIS IS A DEMONSTRATION OF PART OF THE DESIGN PROCESS FOR THE PLATFORMS. THE RED RECTANGLES ARE EACH 4'x8'. THE MAIN PLATFORM MIGHT ONLY REQUIRE FOUR CUSTOM PLATFORMS, BUT THIS IS ENTIRELY AT THE DISCRETION OF THE TECHNICAL DIRECTORS.

THE RAFTERS FLY DS OF THE CYC A BIT SO THEY NEED TO BE A LITTLE LARGE TO SATISFY ALL SIGHTLINES. THEY ARE JUST BLACK STRIPS OF WOOD THAT CREATE SILHOUETTES. LINESET 26.

THESE WINDOWS FLY ON LINESET 20. BUILD ONE OF EACH. THEY FLY JUST LIKE THIS, WITH EACH PAIR 9'-10" FROM CENTER TOWARDS SR AND SL. THIS KEEPS THEM JUST SR AND SL OF THE PROJECTION FIELD.

THEY WILL BE A VERY DARK BROWN BUT REQUIRE NO DIMENSIONAL DETAIL.
