THERE IS AN ARRANGEMENT OF BRICK SURFACES HERE THAT LOOK VERY MUCH LIKE A CHIMNEY. THESE CAN CONCEAL SUPPORT LEGS AND STRUCTURE FOR THE STAIRS AND PROVIDE ENTRANCES TO THE SR STAIRS AND THE SR SHELVES. SEE DRAWING LABELLED "CHIMNEY."

OLD FILTHY REFRIGERATOR

WE WILL GUT THIS SO THAT CHARACTERS CAN ENTER THROUGH IT.

HEATING DUCTS

FURNACE

THE PLAN IS TO ACQUIRE A DERELICT OLD FURNACE AND DUCTWORK TO INSTALL UNDER THE BALCONY.

THIS CORNER OF THE SPACE UNDER THE BALCONY IS INTENDED TO BECOME A TERRIFYING FOREST OF DUCTS, PIPES, HOSES, WIRE, AND SAGGING INSULATION. WE HOPE TO SOURCE DISCARDED MATERIALS.

REMOVE THE RAILINGS FROM THE SR STEPS BUT LEAVE THE STEPS THEMSELVES ALL IN PLACE. AS ACTORS PUSH THROUGH THESE OPENINGS THEY WILL COME OUT ON THE BALCONY BEHIND THE CHIMNEY.
