

THE OPENING IS 30" X 23",
 THE LID-FACE IS 24" X 32",
 PUT A SIMPLE HANDLE ON
 THE LID-FACE.

CUT TWO SIDES FROM LUAN OR MDF OR PLYWOOD,
 THESE ARE PIE-SLICE SHAPES WITH 60 DEGREE
 ANGLES,

THE BACK NEEDS TO CATCH THE OPENING TO STOP THE
 SWIVEL, ADD A 3/2" 1/4 ACROSS THE TOP OF THE TWO
 PIE-PIECES BEHIND THE FLAT, THIS WILL CATCH THE
 OPENING TO STOP THE MECHANISM FROM OPENING
 TOO FAR, AND IT WILL ALLOW OBJECTS TO SLIDE ON
 THROUGH.
